Head

1. Place the band above the eyes, adjusting it with the elastic at the back of the neck.
2. It doesn't need to be tight; the light should cover the area above the ears and the forehead.
3. Press  twice to activate the red and infrared light.
4. Allow the device to turn off (15 minutes), repeat this process twice a day for three days.
5. After completing the process, repeat it with the band reversed, adjusting it with the elastic on the forehead.
